Dear Earth,

It's Dangerous to go alone!, Take this - Ichoronium

I'm sorry, but I don't want to be an emperor

That's not my business

I don't want to rule or conquer anyone

I should like to help everyone leave earth

Noobs, Sweats, Jews, Gentiles,

Blackman, White,

We as gamers all want to bring them to rage and slay one another

Gamers are like that

We want to live by each other's misery ,

not by each others victory

But we don't hate and despise one another

We know The Galaxy has room for everyone

and **Our Solar System** is rich and can provide for the planet and for everyone,

The way of a Gamer's life can be paid, off world, free, and beautiful

But Gaming Studios and Titans have lost the way

Greed has poisoned powerful souls,

They have barricaded us in our living rooms broke with hate

They have goose-stepped Us into a freemium of misery and worthless game items and
online bloodshed,

We developed rockets,for 50 years, but we remain grounded

Electronics that gives mankind abundance of adventure and profits

has left us gamers broke, earth bound and in want

Counter Strike and Dota 2 have made us cynical

Fortnights cleverness, sweaty and unkind

We game too much, are paid nothing, and feel to little

More than Counter Striking ,

We need unity to leave this planet

More that Fortnighting and cleverness,

We need profit sharing, real life adventure, and interplanetary colonization

Without **Ichoronium** in gaming and the world , Your life's promises will continue to be
penniless, and your asses bound to the couches your living rooms

And earth can turn violent and our civilization could be could lost

The xbox and playstation have brought us closer together

The very nature of these inventions cries out for the goodness in Gaming

Cries out to the sense of adventure, exploration , and goodness in us all

Right now my voice and technology stack will start reaching BILLIONS of Gamers throughout the world – billions of despairing streamers, men, women, and their little noobs.

Victims of an industry that has stolen our time minds and capital

Imprisoning innocent gamers to this planet

and enslaving us to their networks

Gamers who are yearning for real life adventure

To those Gamers who will hear me this day , I say - DO NOT DESPAIR !

This misery that is now upon us is but the passing of greed - the bitterness of studios and tech titans who fear the way of losing their profits, power and our human progress

This Corporate Piggishness will pass, and these Networks and Their Games **Will Die**

The time and money they took from us gamers and people

Will return to us gamers and us the people

And so long as Humans game, humanity will leave this planet and never parish

On the front page 2nd line of The Book Of Ichoronium it is written:

“Mankind's Power To Leave Earth is not in one man nor a group of men, one company nor a group of companies, One country nor a group of countries , It's in gamers.”

It's in you!

YOU THE GAMERS HAVE THE POWER !!!!!!!

Let us use that power - LET US ALL UNITE!

Let us game for a New World to live on

and peaceful world to leave

That will give gamers a chance to explore and to do the work they love-

And that will guarantee our children alive today ,

A future out amongst the real stars

And us a security to spend our old age gaming in Space

And colonizing other planets

By abusing these human inventions

and our love of these themes of adventure,exploration and gaming

Gaming Studios and Tech Titans have risen to power !

They lie!

They will not fulfill these promises

And our dreams

They never will!

It's them who, are leaving Earth themselves

while planning on leaving the rest of us behind.

Now let us play a game to fulfill these promises!

Let us play a game to free and leave this world

To do away with national barriers - to do away with the greed, with the hate

, with the poverty, with the hunger and intolerance

Let us game for a world of reason, a world where gaming and science will lead off world colonies

and on earth all Humans happiness.

GAMERS!!

In the name of Ichoronium, let us all unite!
